V2. You can go there at lunchtime

    Check in on your break

    Have yourself a fun time

    Like nothin's at stake

    Let nature take over

    Let it take all the blame

    Just arrive with your lover

    And leave with your shame

Chorus Repeat
Repeat Half Intro

Br. **A$_M$**   **G**   **D**
    You make the promise as you turn out the light
    A$_M$ **G**   **D**
    No tellin' anyone the rest of your life
    F   **E$_M$**
    What makes it easy is you know
                                    A
    You've both got wrong on your side
     B
    And that makes it right

V3. So if you're cruisin' your neighborhood

    With one thing in mind

    And you see someone lookin' good

    Near the 'vacancy' sign

    Well it's just my opinion

    And you can take it or not

    But you just might lose everything

    If you park in that lot

Chorus Repeat
